FROM THE OFFICE OF PRINCIPAL TOM GWIN

Happy New Year! I hope that 2010 brings the best to all of you. The school year continues to fly along as the first semester ends, and mid year exams will take place during the week of January 18th. Exams will be given from Tuesday, January 19th to Friday, January 22nd (see the midyear exam schedule below). Students will be dismissed at the end of the last exam each day.

Although it's only January, the high school is in the midst of planning for next year. For starters, we're at the height of the budget season. The budget process for the high school begins in November when department directors submit their initial FY11 requests to me. Those requests would be for curriculum related expenses, equipment, and additional staffing. These requests are combined to develop the high school budget proposal which is then submitted to the superintendent and director of finance. They then formulate the district's initial budget proposal. During the months of December and January the principals and central office administrators work in conjunction with the school committee to review and prioritize items in the initial proposal. Invariable reductions will be made so the final budget approved by the school committee will be more in line with what the town can actually afford to pay.

In November and December, directors also submit new curriculum proposals (new courses, course modifications, curriculum level changes) to me and we meet to determine which of these proposals actual will be included in our 2010-2011 course selection book. The directors then revise their sections of the course selections book which goes to press in February. The registration process for the next school year then begins in March. If we can work out the necessary details, we're hoping to do course registration online with Edline. At the moment some of the new courses include World Music, Mandarin Chinese, and 21st Century Competencies for Real World Applications, Biotechnology, a senior seminar: The Modern Middle East, Drawing and Painting, AP Psychology, AP Economics, and a second year sculpture course. Of course, what ultimately ends up being offered depends on the final budget. **Principal Drop-in: This month, principal drop-in will take place on Wednesday, January 6th (5:30-7 pm), the same night as the PFA meeting.**

College Goal Sunday is a volunteer-driven effort to provide free assistance to students and families in completing the Free Application for Federal Student Assistance (FAFSA). The program is supported and administered by a volunteer committee comprised of members of the Massachusetts Association of Student Financial Aid Administrators (MASFAA). College Goal Sunday workshops will be held at 17 locations across the state. Students and their parents should bring completed 2009 or 2008 Federal tax returns, W2 statements and other 2009 or 2008 income and benefits information, current bank statements, untaxed income (Social Security, Welfare, Veterans Benefits records, etc.), drivers license and alien registration card, if applicable. Joint Admissions Programs at Middlesex Community College

The Joint Admissions Program at Middlesex Community College allows students to earn their Associate Degree at Middlesex in one of the 25 possible Joint Admissions majors. Students who graduate with a 2.5 cumulative grade point average are guaranteed admission to a participating Massachusetts state college, the University of Massachusetts or Suffolk University. (Massachusetts College of Art and Massachusetts Maritime Academy do not participate at this time.) Participation in the Joint Admissions Program simplifies the transfer process, since there is no need to fill out another

application or pay an application fee. This allows a smooth transition into the bachelor's degree program. Students may decide not to participate in Joint Admissions as there are many other transfer options available, but if they fulfill the Joint Admissions requirements, they know there will be a space waiting for them at their choice of a participating state college, UMass campus, or Suffolk University. To learn more about Joint Admissions, call: 1-800-818-3434, or go to www.middlesex.mass.edu.

Tufts University Adventures in Veterinary Medicine Summer Program

Applications for admission to the Summer 2010 Adventures in Veterinary Medicine (AVM) program are now being accepted. Two-week sessions for high school students are offered in July and August. The program includes lectures, demonstrations, panel discussions, admissions advice, case studies and rotations through various clinics at Tufts University's Cummings School of Veterinary Medicine, North Grafton, Massachusetts, located about 40 minutes west of Boston. AVM offers a unique, close-up exploration of the realities and opportunities of a career in veterinary medicine. Interested students may learn more about the program at the program's website www.tufts.edu/vet/AVM. Applications may be submitted online or printed out and mailed in. For questions, call 508-839-7962.

IMPORTANT: Notice to College-bound Seniors and their Parents:

If a college notifies you that something is missing from your admissions file, check with the Guidance Office about the date the materials were sent. Remember, colleges manage thousands of pieces of information. Recording and filing them can take weeks. Ask someone to physically check your file, not just the computerized database.

REMINDER for Parents of Seniors

During senior year, when a student requests that his/her transcript be sent to a college, the transcript of the first three years is sent to colleges. In February, after mid-year report cards have been issued, a copy of the semester report card is automatically sent to all colleges to which a senior has applied.

ATTENTION JUNIORS & SENIORS

Naviance is updating Family Connection. Changes will go into effect in January. Please note it will have the same functions and you should find it to be more user friendly. Please see your guidance counselor if you have any questions.

Best Wishes for 2010!

***Anti-Idling Campaign Seeks to Educate Drivers* WINCHESTER SCHOOLS LAUNCH EFFORT TO REDUCE STUDENTS' EXPOSURE TO HARMFUL VEHICLE EXHAUST**

Idling bus and other vehicle engines unnecessarily while parked on school property not only increases children's exposure to harmful air pollution, but it is also against the law. That's according to officials in Winchester who have begun a campaign to educate drivers about the importance of turning their engines off while waiting to pick up or drop off children at local schools.

State law limits most engine idling to five minutes or less. The restriction applies to both gasoline- and diesel-powered vehicles. The law provides exemptions for vehicles that are being serviced, making deliveries of refrigerated goods, operating power accessories such as hydraulic or wheelchair lifts, or running emergency or safety lights or equipment that require more than auxiliary power.

However, in August 2009, the Commonwealth of Massachusetts, under the Registry of Motor Vehicles, passed a new regulation that further restricts idling on school grounds specifically.

The purpose of Regulation 540 CMR 27.00, adopted by the Registrar of Motor Vehicles, and pursuant to M.G.L. c. 90, s. 16B, is to restrict unnecessary idling of all motor vehicles on school grounds.

1. No motor vehicle operator shall cause or allow the engine of any motor vehicle operated by him or her on school grounds to idle unnecessarily, except under the conditions described in 540 CMR 27.04 ("Exemptions").
2. A motor vehicle operator shall not idle a motor vehicle within 100 feet from a known and active school air intake system, unless the school has determined that alternative locations block traffic, impair student safety or are not cost effective. Reasonable efforts should be made by schools to identify by signage all such known and active air intake systems.

School grounds is defined as in, on or within 100 feet of the real property comprising a public or private accredited preschool, accredited Head Start facility, elementary, vocational or secondary school whether or not in session, and shall include any athletic field or facility and any playground used for school purposes or functions which are owned by a municipality or school district, regardless of proximity to a school building, as well as any parking lot appurtenant to such school athletic field, facility, or playground.

"Whether you are behind the wheel of a school bus, a delivery truck, an SUV or a car, you should turn off the engine as soon as you pull into a school driveway or parking lot and are waiting to pick up your child" said Winchester Superintendent of Schools William McAlduff. "Excessive engine idling needlessly exposes our children to air pollution that can lead to serious health problems over time."

Diesel exhaust contains fine particles that can penetrate deeply into the lungs and cause breathing difficulties, respiratory infections, and attacks of asthma and chronic bronchitis. Gasoline exhaust contains toxic carbon monoxide and a range of pollutants that contribute to smog and make breathing difficult for everyone.

Children are particularly at risk because their lungs are still developing and pound for pound, they breathe 50 percent more air than adults do.

Students and bus drivers can be exposed to diesel fumes when getting in and out of school buses and passenger vehicles, and even inside them when the engines are running. Exhaust from idling buses, trucks, SUVs and cars accumulates in and around schoolyards, and even inside school buildings when air intake vents are located near bus stops — so teachers, staff and parents can be exposed, too.

"This is why Winchester schools are serious about letting drivers know how important it is for them turn off their engines, particularly when waiting for student dismissal times," Superintendent McAlduff said.

In their effort to reduce air pollution from school buses and private passenger vehicles, Winchester school officials in collaboration with the Department of Public Works will Post "no idling" signs wherever school buses and private passenger vehicles linger.

The prohibitions of M.G.L. c.90, s. 16B are enforceable by state or local law enforcement agencies with penalties of \$100 for first offense and \$500 for second and subsequent offenses.

WFEE News

Thanks to a grant from the Winchester Foundation for Educational Excellence, some social studies teachers at WHS are re-thinking their approach in the classroom. Director Marge Harvey, Katy Rees and Chris Marques recently participated in the National Council for Social Studies conference, "Dreams and Deeds: The Civic Mission of Schools." "Totally exhilarating" is how Mrs. Harvey described the conference, noting it was also an excellent resource as she considers the purchase of new textbooks for WHS. Both Ms. Rees and Mr. Marques said the conference introduced them to new ways of teaching and interesting classroom materials. According to Ms. Rees, "I came away from the event with a lot of excitement for some changes I'd like to make in our curriculum and in my classroom, along with the tools I needed to do this effectively." If you would like to support programs like these please consider a gift to WFEE either through our website at www.wfee.org or by mail to PO Box 1005, Winchester, MA 01890. It is with strong community backing that WFEE is able to support innovation and excellence in Winchester's public schools.

FANSplash is pleased to announce that the Arthur Griffin Foundation for Winchester has pledged a grant of \$15,000 towards the construction of the splash park at Borggaard Beach. The Foundation will match on a dollar-for-dollar basis, up to a maximum of \$15,000, any contributions of cash received by or pledged in support of the project from December 15, 2009 through April 1, 2010. FANSplash is grateful for their generosity, and for their continual support of beautification projects in Winchester. FAN is also grateful to Ed Grant, Jay Gill and their wonderful team at Winchester's Department of Public Works, and to Mr. Whitehead of the Conservation Commission.

FANSplash's goal is to create a community gathering place that is accessible and welcoming to all ages by maximizing the site's existing assets and adding several new features. FANSplash has a little over \$100,000 left to raise for the splash park and this grant will help to make a major impact and increase our chances to have the splash pad installed by this summer!

You can learn more about the FANSplash project and make a secure tax deductible donation online at www.fansplash.org. You can also go to www.winrec.com or call 781.721.7126 to learn about their major fundraiser - a tile making opportunity where you can decorate a tile that will be installed on the bathhouse and will become part of the lasting legacy. More than 90% of the proceeds from each tile will go directly towards the Revitalization Project. All donations are tax deductible and go directly towards creating a wonderful, inclusive, water-based recreational gathering place for all to enjoy!

BACKPACKS FOR KIDS AT SIXSEEDS VIDEO During this season of joy, but also of "gimme gimme" and "can you get me _____?", sometimes it's nice for a family to be reminded of their blessings and get together to help those who are less fortunate. If you're looking for something in that vein to do, SixSeeds Video (600 Main Street) has a Seed Pack-It project going on at the store (SeedPackIt@SixSeeds.org or 781-721-1422). Families, groups and individuals can come to the store, pack a backpack full of school supplies and basic care items (notebooks, crayons, pencils, blanket, toothbrush and much more), write a letter and ship the pack to children living in a squatter community in Mexico - all for only \$25 (you also have the option of taking the supplies home and doing the packing there). The Kingston family (Caitlin - Grade 11, Annalise - Grade 9, Christopher - Grade 5 and William - Grade 1) along with their parents, have visited these kids living on the hillsides of Tijuana for the last four years and know they could use the help of our wonderful community! **SIXSEEDS LAUNCHES A NEW WEBSITE - SixSeeds.tv**. The Kingston Family who founded the organization SixSeeds, has just launched a brand new website to help busy parents navigate this increasingly intricate world of popular culture. "In today's world, we're constantly surrounded by stories.
